PROFESSIONAL SUMMARY

I am an experienced Front End Developer with 4+ years in the field. I have a proven track record of developing innovative and user-friendly web applications. My expertise lies in HTML, CSS, JavaScript, React JS, and J Query. I am passionate about creating fast, responsive and highly functional websites for clients. Moreover, I have experience in creating responsive designs using media queries and Bootstrap framework. My biggest achievement was developing a website from scratch for a client that was up and running within a week. I am also highly organized and an excellent communicator. I am confident that I can provide valuable assistance to any project that requires front end development.

WORK EXPERIENCE

Stigen Martech Pvt Ltd

10TH JUNE 2022 - PRESENT

Blue Ocean HealthCare Pvt Ltd

MAY 2018 TO JUNE 2022

Website Developer

- At Blue Ocean Company, I served as a vital member of the web development team, contributing to the creation and enhancement of dynamic and visually appealing websites.

- Collaborating closely with designers and stakeholders, I translated concepts and requirements into functional and user-friendly web solutions.
- Leveraging my expertise in HTML, CSS, JavaScript, and various frameworks, I played a key role in implementing responsive designs and optimizing site performance
- My dedication to staying updated with emerging technologies and industry trends allowed me to propose innovative solutions and continually improve the user experience.

MRG WORLD

AUG 2017 TO MAY 2018

HTML Developer

MRG World is a conglomerate of companies operating since decades in the agro sector, financial sectors, education sector with a Pan India presence.

- **Building Web Page Structures:** Writing clean, semantic HTML to structure web content such as text, images, and forms, ensuring they display correctly on websites.
- **Collaboration with Designers:** Implementing designs from UX/UI designers to create user-friendly and visually appealing web pages, maintaining consistency with design specifications.
- **Responsive Design:** Ensuring websites are mobile-friendly by using responsive web design techniques, ensuring proper display across devices and screen sizes.
- **Performance Optimization:** Writing efficient, lightweight code and using best practices to ensure quick load times and overall performance.
- **Cross-Browser Compatibility:** Ensuring the website works smoothly across various browsers (Chrome, Firefox, Safari, etc.), troubleshooting and fixing layout or functionality issues.
- **Testing and Debugging:** Conducting regular testing and debugging of HTML code to fix errors, optimize functionality, and improve the user experience.
- **Collaboration with Backend Developers:** Coordinating with backend developers to integrate front-end HTML structures with server-side logic or databases.
- **Updating and Maintaining Content:** Regularly updating content on the website and making minor improvements or adjustments to keep the website current and functioning properly.

ACCOMPLISHMENTS
